# Recent projects ON THE SCENE

ES.ARTE designs, promotes, organizes and manages projects, activities, festivals as well as provides opportunities to performing arts, music- and audiovisual-related performances.

Our goal is to find and enjoy the synergies that dance, cinema, tourism, gastronomy and culture can offer. With this in mind, these are our recent projects already in progress.

## 3rd LDC FESTIVAL A PLACE TO SHARE

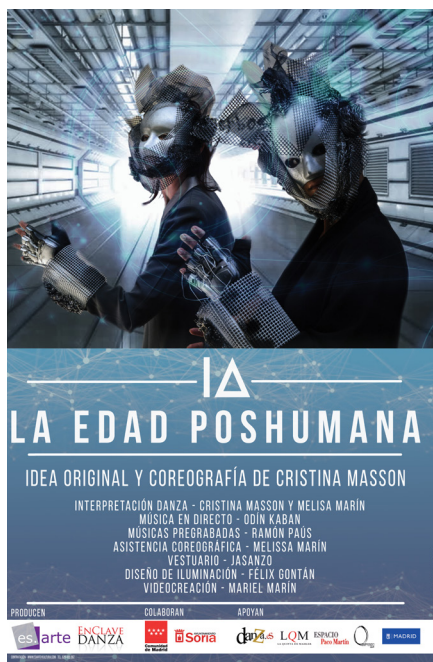

We are already in the third edition!  
A place where we SHARE different dance languages, performances, dialogues, workshops, meetings, cinema and fashion...

The LDC Festival offers knowledge and exchange of dance, value enhancement of formats and artists, pedagogical dissemination, creation of new audiences...

May the EXPERIENCE, yet brief, be UNIQUE.

**Madrid, 8-29 October 2019**

## IA THE POSTHUMAN AGE

Contemporary DANCE, electronic music and video creation.

2045 ... IT'S ALL A QUESTION.  
Can ARTIFICIAL INTELLIGENCE dream? Is it possible to think about the disappearance of humans from the planet?

Artificial intelligence develops at an exponential rate. LIVING with intelligent ROBOTS is already a fact ... What if ARTIFICIAL INTELLIGENCE learned from its mistakes faster than humans?

**Premiere: November 2018**

## ESCAPE

Contemporary DANCE, electroacoustic music and video creation.

Created in ITALY, the performance reflects upon the feeling to escape, the impossibility of doing it so, as well as the bitter taste of being trapped in a situation.

We also reflect on the antagonistic idea of being trapped as how to catch public attention or how to be caught by a long-desired situation.

**Premiere: October 2019**

# ON THE SCREEN

DOCUMENTARIES FEATURING ARTS AND CULTURE

Characterized by strong cultural identity and unique artistic value, we have a different way of looking at production

In 2014 we began a journey through a new audiovisual path. Interestingly, this adventure was like returning to the origins ... It was the production of "Rubita" by a very young director, Jota LINARES.

This film has taken us to festivals, we established contacts with new teams and won awards. ... With titles such as "A los Ojos", "Por Sifo" and "Vientos del Pueblo Sirio" we have evolved in social and cultural direction while finding and prioritizing our artistic identity.

Since 2015 we include audiovisual language in our dance shows and theatre plays. (The former with EnClaveDANZA and director Cristina Masson, the latter with director Diego Palacio, award-winning director of the ADE-Association of Stage Directors) ... The road we have taken has brought us to an enthusiastic

and beautiful project led by director and documentary filmmaker Juan Vicente CHULIÁ: the feature film "DANZANTES".

Our immediate future already has numerous itineraries and projects full of emotions as well as risks, accompanied by the same director, a true poet of image and music ... *"It is impossible to make a good movie without a camera that is like an eye in the heart of a poet"* - Orson Welles.
